

Fairview High School

Getting your AP scores ...

As an AP student, you will automatically receive an AP **Score Report** by mail that lists your cumulative AP exam scores and any colleges to which your scores were sent. You can also find information about score reporting services in the *Bulletin for AP Students and Parents* and in your AP **Student Pack** (given during the AP registration process).

Since only graduated seniors benefit from the college **Score Report**, students still enrolled in high school should be diligent to keep their scores in a safe place along with their AP **Student Pack** (given during the AP registration process). These documents will be of great value during the college application process. Unfortunately, district policy no longer allows Fairview to include AP test scores with transcripts. College Board has a wide range of score reporting services available; students should contact them directly.
